PROFESSIONAL SUMMARY

Data Analyst with around 1.5 years of experience, currently pursuing an M.Tech in AI and ML at BITS Pilani. As a Research Associate, AI at Keywords Studios, I turn data, KPIs, and model results into clear insights that guide better decisions, and was named "Rookie of the Year 2025" for beating every performance KPI. I enjoy digging into messy data and making it genuinely useful. Outside work, I enjoy drawing, tennis, running, philosophy, ASL, reading, and exploring new technology.

EDUCATION

Birla Institute of Technology and Science, Pilani (BITS Pilani) July 2026 – July 2028
M.Tech in Artificial Intelligence and Machine Learning (Currently Pursuing)
Relevant Coursework: NLP, Deep Learning, Generative AI, LLMs, Deep Neural Networks, Deep Reinforcement Learning

K.R. Mangalam University July 2021 – July 2025
B.Tech in Computer Science and Engineering (Specialization in AI/ML), Gurgaon

EXPERIENCE

Research Associate – AI, Keywords Studios India – Gurgaon, Haryana May 2025 – Present

- Awarded "**Rookie of the Year 2025**" for surpassing **all performance KPIs** through data analysis, pipeline optimization, and collaboration.
- Analyzed **model performance data and KPIs** to guide Agentic AI training decisions, improving task-completion reliability.
- Analyzed and curated evaluation data for a **web-automation AI agent** that interprets on-screen content and autonomously executes multi-step browser actions from natural-language instructions.
- Curated high-quality datasets and ran structured test reviews with a global team, delivering client-ready iterations with **measurably improved accuracy and reliability**.
- Delivered **85%** of self-generated, quality-checked datasets to production as the **first member of a global team**, applying systematic data validation and cleaning.

Artificial Intelligence Intern, Infosys – Remote November 2024 – February 2025

- Analyzed customer interaction data to pinpoint improvement areas, contributing to a **35% increase in AI response accuracy**.
- Tracked and reported system performance metrics, helping **reduce latency by 25%** through data-driven recommendations.
- Designed and A/B-tested prompt strategies with automated LangSmith evaluation, reducing **hallucinations by 20%** and reporting the impact through clear metrics.
- Collaborated with **12 engineers** and presented findings at the **Best Project by Indian Interns** initiative.

PROJECTS

Dynamic Screen Companion June 2025 – Present

- Built a real-time multi-modal assistant integrating the **Gemini API** to analyze live screen activity and surface insights, reducing manual task time by **40%**.
- Designed the data extraction workflow end-to-end, optimizing OCR pipelines to maintain **95%+ accuracy** across varied layouts.
- Structured extracted data into **clean, query-ready formats** to enable downstream reporting.

Diabetic Optiscan January 2025 – June 2025

- Built an AI tool that scans retinal (eye) images to detect early signs of diabetic retinopathy, and co-authored a **peer-reviewed research paper** presenting the methodology and results.
- Analyzed the APTOS retinal dataset and applied a **Vision Transformer (ViT-B/16)** with statistical evaluation to detect spatial patterns.
- Designed a custom wavelet technique that improved **detection precision by 50%** over legacy methods.

Currency Detection App for Visually Impaired July 2024 – December 2024

- Built and evaluated an image-classification model on **200,000+ banknote images** achieving **96% accuracy**, deployed with accessibility-focused voice feedback.
- Conducted **user interviews with visually impaired individuals** to validate requirements with real-world feedback.

SKILLS

Languages & Tools: SQL, Python, R, Excel (Advanced), MySQL, MongoDB, Git, Jupyter

Analytics & Visualization: Power BI, Matplotlib, Seaborn, Dashboarding, Reporting, Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), KPI Tracking

Statistics & Modeling: Descriptive & Inferential Statistics, Hypothesis Testing, A/B Testing, Regression, Forecasting, Predictive Modeling, Pandas, NumPy, Scikit-learn

Business & Cloud: Business Intelligence, Stakeholder Reporting, Pricing Analytics, AWS, GCP

CERTIFICATIONS

Ducat India – Data Science Professional Training April 2024 – April 2025
Professional training in Data Science: Python, statistics, machine learning, data analysis, and predictive modeling.

AI/ML for Geodata Analysis – ISRO
Applied ML and deep learning to satellite and remote-sensing imagery for terrain classification and geospatial pattern analysis.
