PROFESSIONAL SUMMARY

Data Analyst with about 1.5 years of experience, currently pursuing an M.Tech in AI and ML at BITS Pilani. As a Research Associate, AI at Keywords Studios, I turn data, KPIs, and model results into clear insights that guide better decisions, and was named “Rookie of the Year 2025” for surpassing every performance KPI. With earlier internships at Infosys Springboard and QL2 Software, plus a B.Tech in Computer Science (AI and ML) from K.R. Mangalam University, I enjoy digging into messy data and making it genuinely useful.

EDUCATION

Birla Institute of Technology and Science, Pilani (BITS Pilani) July 2026 – July 2028
M.Tech in Artificial Intelligence and Machine Learning (Currently Pursuing)
Relevant Coursework: NLP, Deep Learning, Generative AI, LLMs, Deep Neural Networks, Deep Reinforcement Learning

K.R. Mangalam University July 2021 – July 2025
B.Tech in Computer Science and Engineering (Specialization in AI/ML), Gurgaon

EXPERIENCE

Research Associate – AI, Keywords Studios India – Gurgaon, Haryana May 2025 – Present

- Awarded “**Rookie of the Year 2025**” for surpassing **all performance KPIs** through data analysis, pipeline optimization, and collaboration.
- Analyzed **model performance data and KPIs** to guide Agentic AI training decisions, improving task-completion reliability.
- Analyzed and curated evaluation data for a **web-automation AI agent** that interprets on-screen content and autonomously executes multi-step browser actions from natural-language instructions.
- Curated high-quality datasets and ran structured test reviews with a global team, delivering client-ready iterations with **measurably improved accuracy and reliability**.
- Delivered **85%** of self-generated, quality-checked datasets to production as the **first member of a global team**, applying systematic data validation and cleaning.

Artificial Intelligence Intern, Infosys – Remote November 2024 – February 2025

- Analyzed customer interaction data to pinpoint improvement areas, contributing to a **35% increase in AI response accuracy**.
- Tracked and reported system performance metrics, helping **reduce latency by 25%** through data-driven recommendations.
- Designed and A/B-tested prompt strategies with automated LangSmith evaluation, reducing **hallucinations by 20%** and reporting the impact through clear metrics.
- Collaborated with **12 engineers** and presented findings at the **Best Project by Indian Interns** initiative.

PROJECTS

Dynamic Screen Companion June 2025 – Present

- Built a real-time multi-modal assistant integrating the **Gemini API** to analyze live screen activity and surface insights, reducing manual task time by **40%**.
- Designed the data extraction workflow end-to-end, optimizing OCR pipelines to maintain **95%+ accuracy** across varied layouts.
- Structured extracted data into **clean, query-ready formats** to enable downstream reporting.

Diabetic Optiscan January 2025 – June 2025

- Built an AI tool that scans retinal (eye) images to detect early signs of diabetic retinopathy, and co-authored a **peer-reviewed research paper** presenting the methodology and results.
- Analyzed the APTOS retinal dataset and applied a **Vision Transformer (ViT-B/16)** with statistical evaluation to detect spatial patterns.
- Designed a custom wavelet technique that improved **detection precision by 50%** over legacy methods.

Currency Detection App for Visually Impaired July 2024 – December 2024

- Built and evaluated an image-classification model on **200,000+ banknote images** achieving **96% accuracy**, deployed with accessibility-focused voice feedback.
- Conducted **user interviews with visually impaired individuals** to validate requirements with real-world feedback.

SKILLS

Languages & Tools: SQL, Python, R, Excel (Advanced), MySQL, MongoDB, Git, Jupyter

Analytics & Visualization: Power BI, Matplotlib, Seaborn, Dashboarding, Reporting, Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), KPI Tracking

Statistics & Modeling: Descriptive & Inferential Statistics, Hypothesis Testing, A/B Testing, Regression, Forecasting, Predictive Modeling, Pandas, NumPy, Scikit-learn

Business & Cloud: Business Intelligence, Stakeholder Reporting, Pricing Analytics, AWS, GCP

CERTIFICATIONS

Ducat India – Data Science Professional Training April 2024 – April 2025
Professional training in Data Science: Python, statistics, machine learning, data analysis, and predictive modeling.

AI/ML for Geodata Analysis – ISRO
Applied ML and deep learning to satellite and remote-sensing imagery for terrain classification and geospatial pattern analysis.
