SUMMARY

Data Analyst with ~1 year of experience transforming raw data into clear, actionable business insights through SQL, statistical analysis, and data visualization. Recognized as “Rookie of the Year 2025” at Keywords Studios for exceeding all KPIs. Skilled in Python, SQL, Power BI, and Excel, with strengths in data cleaning, exploratory analysis, dashboarding, and reporting that drive data-informed decisions.

EDUCATION

K.R. Mangalam University

July 2021 – July 2025

B.Tech in Computer Science and Engineering (Specialization in AI/ML), Gurgaon | Cumulative GPA: 8.5/10

Relevant Coursework: Data Structures & Algorithms, NLP, Computer Vision, DBMS, Machine Learning, Deep Learning

EXPERIENCE

Research Associate – AI, Keywords Studios India – Gurgaon, Haryana

May 2025 – Present

- Delivered 85% of self-generated, quality-checked datasets to production as the first member of a global team, applying systematic data validation and cleaning.
- Analyzed model performance data and KPIs to guide Agentic AI training decisions, improving task-completion reliability.
- Awarded “Rookie of the Year 2025” for surpassing all performance KPIs through data analysis, pipeline optimization, and collaboration.

Artificial Intelligence Intern, Infosys – Remote

November 2024 – February 2025

- Analyzed customer interaction data to identify improvement areas, contributing to a 35% increase in AI response accuracy.
- Tracked and reported system performance metrics, helping reduce latency by 25% through data-driven recommendations.
- Collaborated with 12 engineers and presented findings at the Best Project by Indian Interns initiative.

Data Analytics & ML Intern, QL2 Software – Gurgaon, Haryana

June 2024 – August 2024

- Performed large-scale data extraction, cleaning, and analysis for competitive pricing intelligence, building predictive models that delivered actionable business insights.
- Created reports and visualizations to communicate pricing trends and recommendations to stakeholders.

PROJECTS

Dynamic Screen Companion

June 2025 – Present

- Built a real-time multi-modal assistant integrating the Gemini API to analyze live screen activity and surface insights, reducing manual task time by 40%.
- Optimized OCR pipelines to maintain 95%+ data extraction accuracy across varied layouts.

Diabetic Optiscan

January 2025 – June 2025

- Analyzed the APTOS retinal dataset and applied a Vision Transformer (ViT-B/16) with statistical evaluation to detect spatial patterns.
- Designed a custom wavelet technique that improved detection precision by 50%, and co-authored a peer-reviewed research paper.

Currency Detection App for Visually Impaired

July 2024 – December 2024

- Built and evaluated an image-classification model on 200,000+ banknote images achieving 96% accuracy, deployed with accessibility-focused voice feedback.

SKILLS

Languages & Tools: SQL, Python, R, Excel (Advanced), MySQL, MongoDB, Git, Jupyter

Analytics & Visualization: Power BI, Matplotlib, Seaborn, Dashboarding, Reporting, Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), KPI Tracking

Statistics & Modeling: Descriptive & Inferential Statistics, Hypothesis Testing, A/B Testing, Regression, Forecasting, Predictive Modeling, Pandas, NumPy, Scikit-learn

Business & Cloud: Business Intelligence, Stakeholder Reporting, Pricing Analytics, AWS, GCP

CERTIFICATIONS

Ducat India – Data Science Professional Training

April 2024 – April 2025

Professional training in Data Science: Python, statistics, machine learning, data analysis, and predictive modeling.

AI/ML for Geodata Analysis

Offered by ISRO (Indian Space Research Organisation) – applying AI/ML to geospatial data analysis.
